

Corvette Marine - 320

£ 149,950

Description

Corvette 320 'Alana' 'Alana' is one of the last handful of Corvette 320's built and benefits from all of the little details and upgrades that sets her apart from earlier models. This unique semi-displacement hull offers extremely wide and reassuring side decks with strong rails and is just a joy to use and cruise. Stable at both high and low speeds, this all weather trawler design is hard to beat. Fitted with twin Yanmar 6LP-STP 315hp shaft drive diesels (615hrs) the larger of the engine options fitted in the Corvette 320's, offers comfortable cruising speeds of 18 knots +. 'Alana' has had light but regular use from her 3 owners and has mainly been used and cruised in the Solent area. Her hull also benefits from her copper coating and is regularly lifted ashore and has an excellent maintenance record keeping her ship shape and up to date. If you are looking for a great example of worlds biggest little trawler yacht then this one has to be on your list. Asking £149,950 tax paid, small P/X considered.
